

SF-Rima - Project Report # 2

Project:

**Bob Smith BMW,
Calabasas, CA**

27,000 sq.ft. SF-Rima™

Permeable pavement allowed the project to meet local stormwater management requirements.

The use of 27,000 sq.ft. of SF-Rima™ In customer parking, outdoor vehicle display, and vehicle storage areas helped meet the requirements of the City and the Los Angeles Regional Water Quality Control Board for the reduction of pollutants discharge into the storm water systems.
