

## SF-Rima - Project Report # 15

### Project:

**Vantage Homes**  
928 E. Meadow Drive  
Palo Alto, CA

**Developer: Warmington Homes**  
**Installer: European Paving Design,**  
San Jose, CA  
12,800 sq.ft. SF-Rima™

### New project offers eco-friendly homes

This is a new and unique housing development and the largest solar powered project on the Peninsula. Vantage of Palo Alto includes 76 town homes each with its own solar panel on the roof.

Other ecological features of this project include motion controlled lighting, tank-less on-demand water heaters, recycled construction materials and drought resistant landscaping.

Among the 20 green and energy efficient features these town homes offer, are driveways and entrances paved with **SF-Rima™**.
