

SF-Rima - Project Report # 21

Project:

**Artist Mall Northbank Riverwalk Park,
Jacksonville, FL**

16,000 sq.ft. SF-Rima™

The Fuller Warren Bridge carries I-95 across St. Johns River.

As a result of a land swap between the City of Jacksonville and Fidelity National Financial, Jacksonville residents have gained more access to the river in the form of a 1.3 acre park with 28 public parking spaces.

This new public Northbank Riverwalk Park will complement the many great downtown assets the City of Jacksonville has along the Riverwalk and will more revitalize downtown.

The property under the Fuller Warren Bridge is being converted into an outdoor artist mall with vending space, an outdoor auditorium and public parking.

SF-Rima™ manufacturer:
Tremron Jacksonville Inc.
